Suditi is the blending of
Su+di+ti

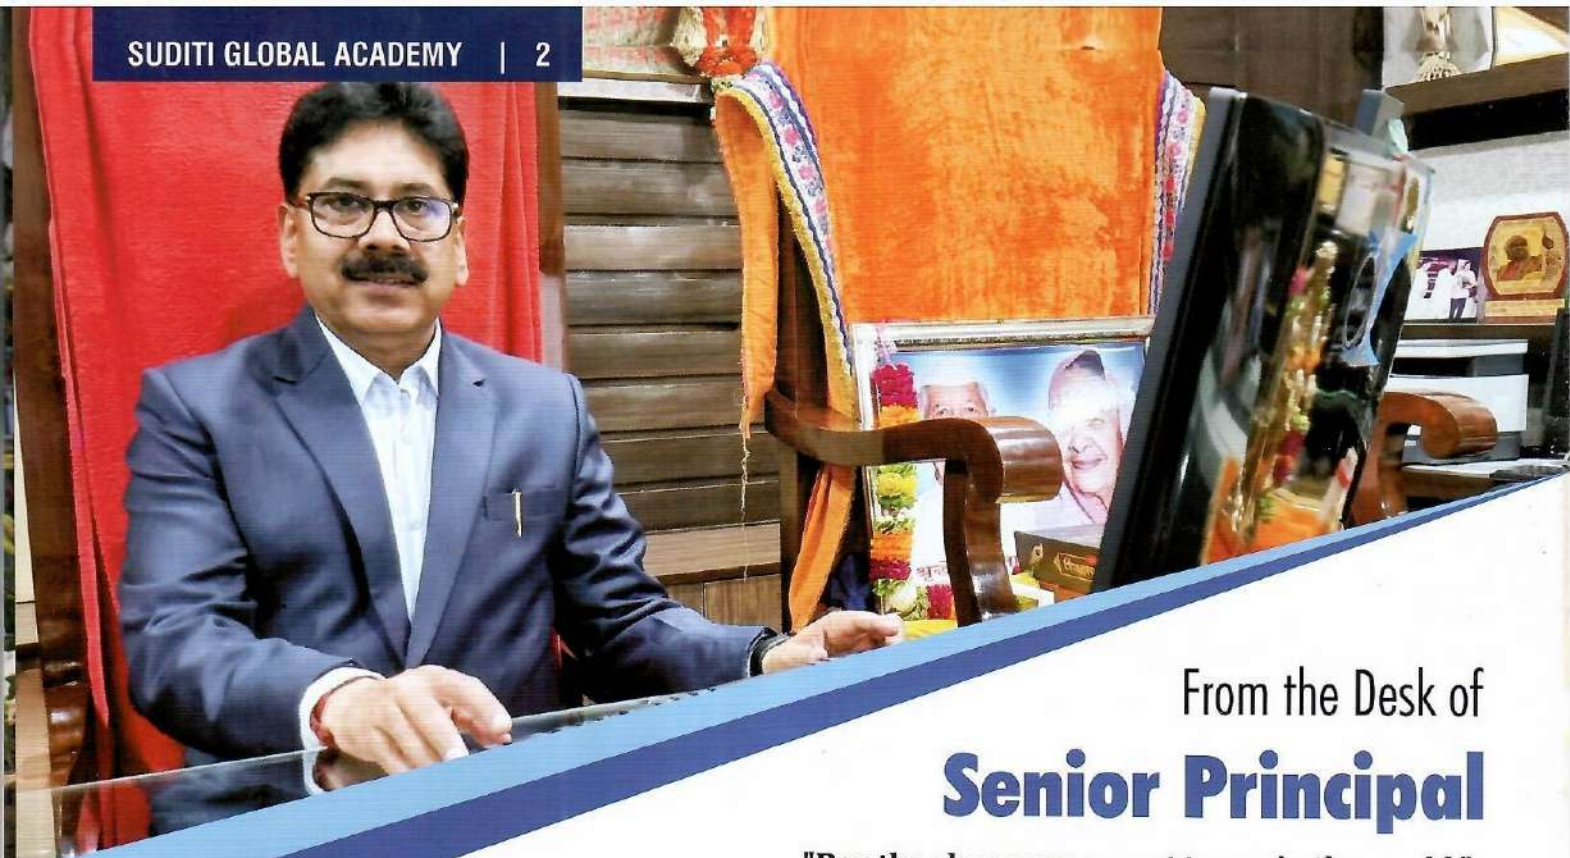

where **"Su"** has been plucked from Dr. Ram Mohan's Late Father
Shri **Sukhvir** Singh,

"Di" has been borrowed from his Late Mother Smt. **Dilawari** Devi
while **"Ti"** has been taken as an unendable source of wisdom from **Tin** Devian
(**Maa Kali, Maa Laxmi & Maa Saraswati**)

As a whole **Suditi** has been a source of eternal love, wisdom and prosperity.

OVERVIEW

From the Desk of **Senior Principal**

**"Bee the change you want to see in the world."
(Mahatma Gandhi)**

The relentless pursuit of the school has been -

"To lay the foundation of a noble character of moral integrity, brotherhood, patriotism and sacrifice in the young minds so that they grow straight and strong as ideal leaders who can shape the destiny of the nation."

Education suffuses our lives with joy its eternal merits outliving lives and existence into meaningful realms adding worth to not one or some but millions the profundities of its virtues igniting mankind into hallowed portals justifying life quintessentially.

The foundation of 'Suditi Global Academy' is laid with a view to facilitating the children of the society, the nation and the world with education. It is the dream child of me and my wife under the inspirational forces my venerable parents, **"Late Sh. Sukhveer Singh"** and **"Smt. Dilawari Devi"** and reverend **"Late Sh. Madan Lal Arya."**

Schools are the temples which help enlighten the mind and behavior of students, the main motto of education at Suditi Global Academy is to develop an individual physically, mentally and socially. It is a holistic process and continues through our life.

Children are the mirrors in which we see our reflection. They have boundless energy and many talents. **SGA** facilitates all round development of children to the maximum and endeavors to use their energy for creative work.

We wish to achieve our goals by making our students to be problem solvers, users of technology, effective communicators and lifelong learners in a rapidly changing global community by providing challenging experiences in a safe, caring, supportive and cooperative environment and prepare them to be successful and happy in this highly competitive and future global scenario. Our aim is to facilitate the holistic development of each child not only as an individual but also as a well adjusted member of a larger society.

SGA students are helped to master the expanding horizons of technology and it has also become the repository of a deep commitment to Indian ethos and culture in its pristine form.

Dr. Ram Mohan
Senior Principal
Suditi Educational Group

From the Desk of **Vice President**

"I seek to know more and yet more all through life with increasing knowledge, life expands and flourishes. When I cease to learn I cease to grow."

(SHRI RAM KRISHNA PARAMAHANSA)

Today, India has a mission of transforming itself into a developed nation with value system which can be transacted and achieved through our youth power which has got the power of idea, ambition and enthusiasm along with the ability. Once in a way dreaming the impossible may be the most practical thing to do.

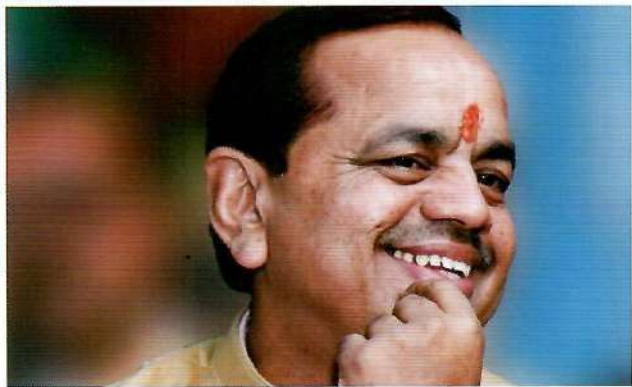

SGA has been making a significant contribution to the society through spreading value based education keeping the ancient tradition in mind. We believe that the best way to do is to initiate it. We also give emphasis to character building as we consider moral values as important as academic advancement.

It gives me a great pride and pleasure to write about Suditi Global Academy which is unique in itself with state of the art infrastructure and facilities to meet the need and requirement of molding the child of 21st century for an inclusive society.

Life rests on continuous learning either in the form of seeking information or acquiring experience from the criss-cross patterns of living in groups. We encourage all children to actively participate and learn from academic events and experience. The number of activities which is hitherto be held in the calendar year affirm that the faculty members are facilitating the learners to identify what type of intelligence each one belongs to, in addition to the track record of scholastic achievement of the students, my joy knows no bounds to observe that club activities have brought out logical intelligence, kinesthetic, interpersonal intelligence, musical intelligence and verbal-linguistic intelligence of many a pupil. I am sure that the students of SGA would definitely have the desire and will-power to become good leader's wit, though a never ending process of self study, education, training and experience, would bring laurels to themselves, their institution and to the nation.

Dr. Kusum Mohan
Vice-President
Suditi Educational Group

From the Desk of Secretary...

"Education is not the learning of the facts but the training of the mind to think."
(Albert Einstein)

The world is at a juncture where there is a dire need for each individual to be aware of the latest development taking place at the global front and be the active participant in it. Resolute and committed to bring a key change in social environment as per the amplifying transition in his/her contemporary world. "Education is not mere accumulation of facts; it is preparation for life itself." The basic need of the present time is to train the students in such a manner that they are able to traverse the unexplored global terrain with ease, strengthened by values, ethics, confidence and above all positivity. The students need an open, enriched educational enrolment designed to develop superior thinking skills.

Our heartfelt desire is to provide a holistic education that enables growth, optimism, hard work and all round development with a better understanding of the cultural, moral and social contexts of one's lives. There is no denial to the need for quality of education in India. Only a literate, critically thinking young population will be able to ensure a balanced and sustainable growth of the country. We believe that every child is a unique and has potential to excel. We nurture the students' enquiring minds and help them to develop critical thinking, communication skills, and life skills of flexibility, initiative, social skills, productivity and leadership which will help them to thrive not only in the classroom but also in the world beyond.

From the Desk of Managing Director & Treasurer...

"Education is the most powerful weapon by which you can use to change to world."

(Nelson Mandela)

Education is meant to maximize one's potential and help to integrate with one's true self, surroundings, society, country and humanity.

A system of education which is built on the premises of quality and equity is central as it must be to India's rapid progress as a modern dynamic society. Education is the gateway to opportunity for all.

SGA is an institution that prides itself in the relationship it has with its community. The school strives to educate students so that they are ready to reach their highest potential. We aim for excellence in all that we do.

We at Suditi Global Academy, are earnestly committed to the noble pursuit of imparting knowledge and education to its pupils based on values, personality development and character-building.

We encourage you to become actively involved in all aspects of your child's education. You'll find many opportunities to support in the class rooms, the parents and citizen association and the school council. Get to know the staff, especially your ward's teachers and assist where you can so. We can work together in the interests of everyone. **SGA** makes relentless efforts to bring together the traditions and ethos of India and modern technology in an environment where every child is individual. There is no better place for a child to appreciate the joys of nature and become environmentally conscious.

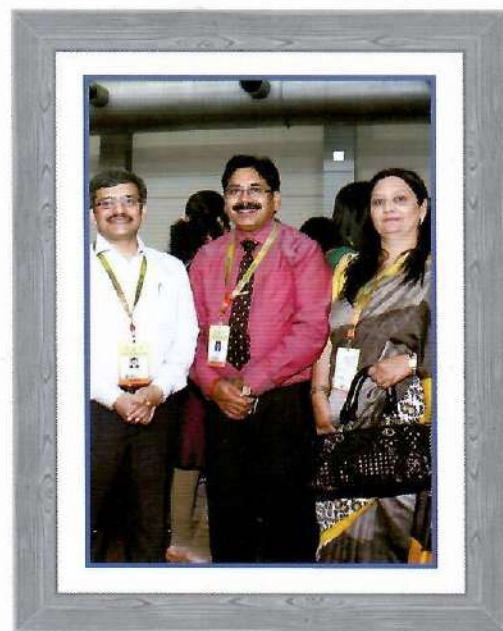

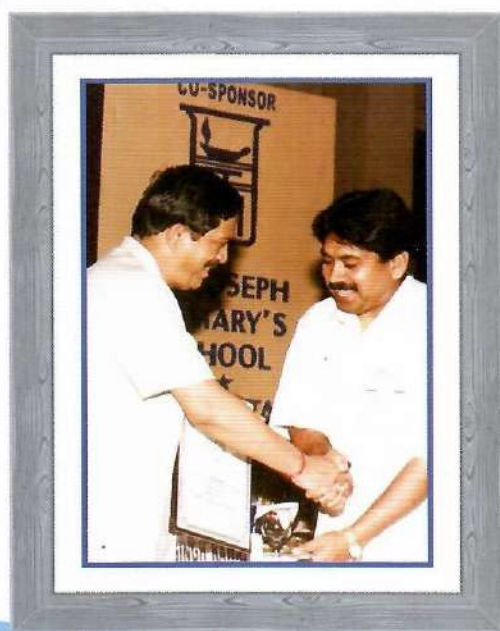

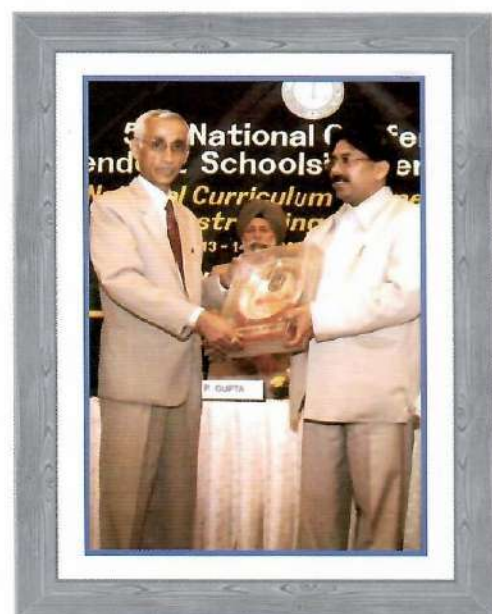

We hope that the parents who have entrusted us with a mammoth task of shaping the personality and career of their precious children will always cooperate with us so that we may together be able to make the children not only literate but also educate in the real sense. And our object is our father's dream. We are sure that it will be done by the blessings of our adorable grand father and grandmother "**Late Sh. Sukhveer Singh and Late Smt. Dilawari Devi**".

Unique and Distinguishing Facets

The School offers students and parents a unique educational experience which, in many ways, is different from schools elsewhere. The salient and distinguishing features which make the school exclusive and exceptional are the following:

- A major focus of the school is character development, in addition to academic excellence. Inculcating the virtues of adherence to truth and discipline, dedication to duty and devotion to the Supreme is as important as academic excellence.
- The school believes in national integration as is amply portrayed in its emblem and follows an open-admission policy purely on the basis of merit. It encourages enrolment of boys and girls irrespective of income, class, creed, religion or region without reservations or preferences for any particular community or religion.
- The school has students hailing from many parts of the country. They fully participate in all the festivals celebrated and cultural programmes conducted at the school. This serves to give them a feel of the hallowed ideals of 'Unity-Purity-Divinity', which is the quintessence of Indian culture.
- The school has a highly competent and dedicated team of teachers drawn from different parts of India who are committed to be exemplars of values. The teachers live with children in the hostel to give personal attention to every student much like the ancient gurukula system and ensure the atmosphere of love and care.
- The school integrates value education and teaching in all its programmes. It is the relentless pursuit at the school to instill in every student, the universal and timeless doctrine of 'Fatherhood of God and Brotherhood of Man.' there are also special Human Value classes held to provide students a deeper insight into religion and philosophy.
- The school has a nurturing climate based on the twin foundations of love and discipline. It is suffused with prayers, bhajans, stories and parables drawn from different faiths of world.

Atal Tinkering Lab

Suditi Global Academy, Mainpuri feels immense pride in announcing yet another achievement of the school. NITI Aayog or National Institution for Transforming India, an Indian Government policy think-tank established by Honourable Prime Minister of India, Sh. Narendra Modi, in collaboration with Intel Technology, India has initiated a project of awarding fund for the establishment of Atal Tinkering Lab across various institutions in India. Suditi Global Academy, Mainpuri has the privilege to be the only school in the nearby area to have been selected for the sanction of funds for the labs.

The Atal Tinkering Lab is aimed at nurturing and nourishing creativity, curiosity and imaginative capabilities in the young minds of the children and inculcates in them the skills of design mindset, computational thinking, adaptive learning, physical computing, etc. Young children will get a chance to work with tools and equipment for experiments and inventions related to science, electronics, robotics, open source micro-controller boards, sensors and 3D printers and computers.

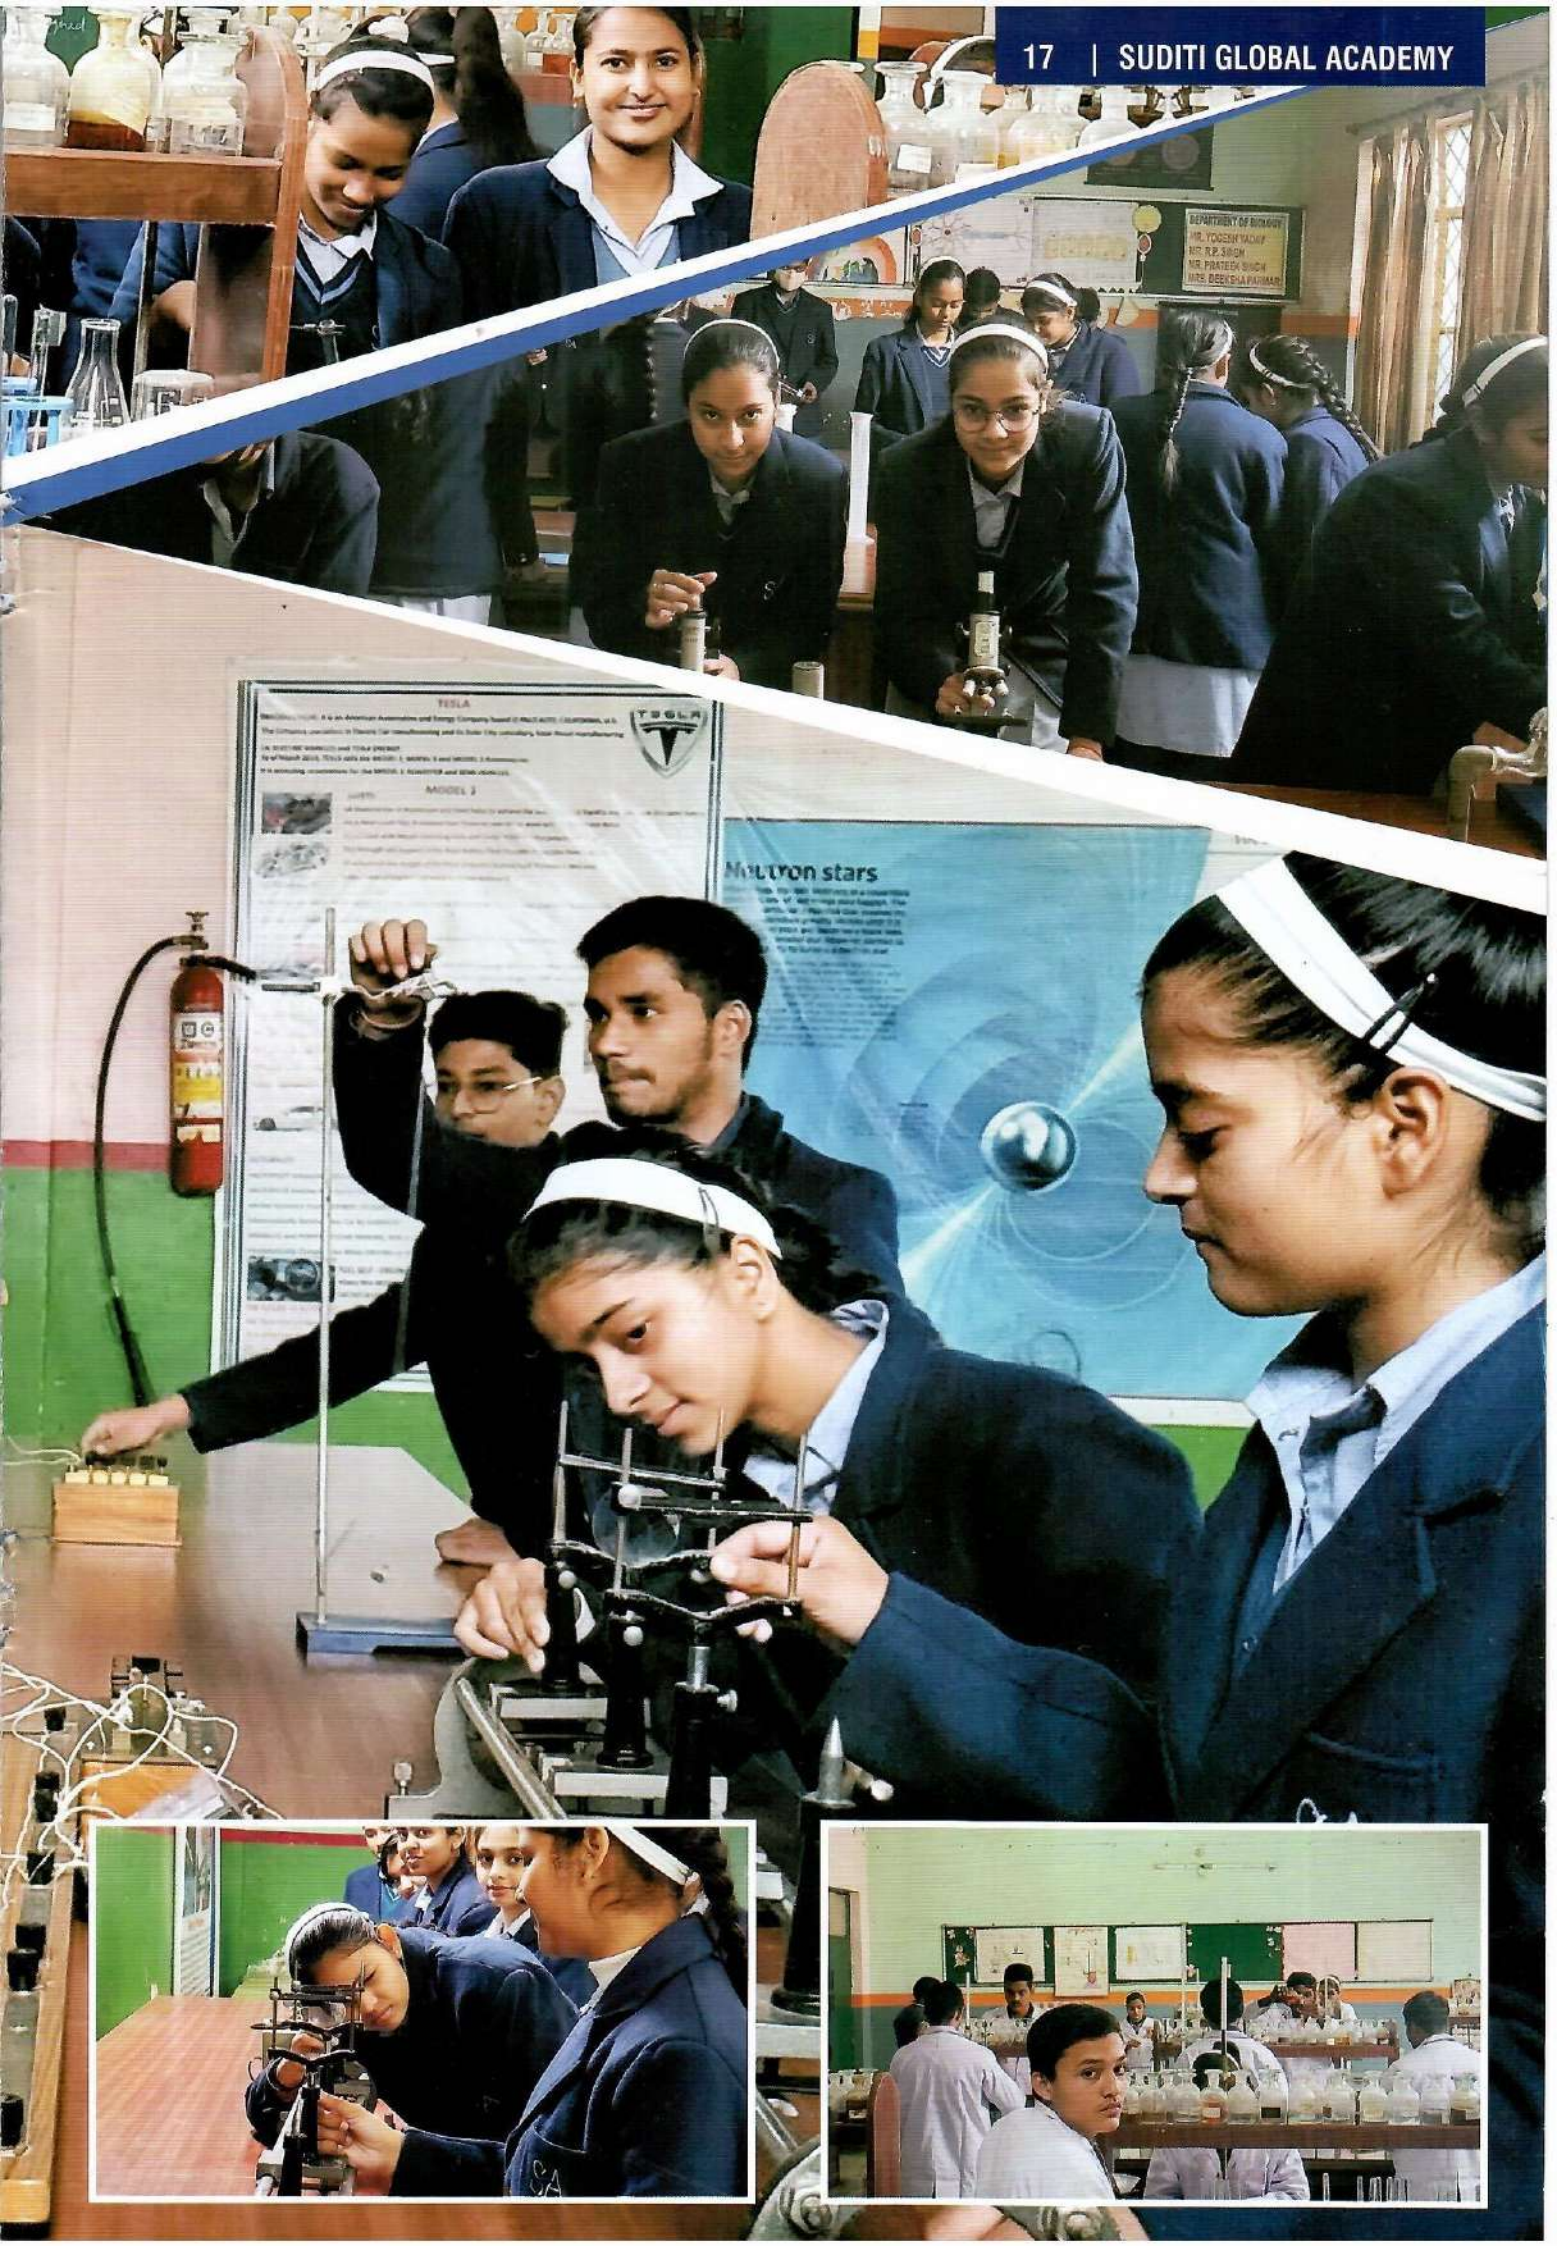

This success of Suditi Global Academy, Mainpuri, does not benefit the school alone but will be shared by the schools and students of nearby areas because Suditi Global Academy, Mainpuri will only act as a coordinator of the lab. The enthusiastic students from various schools would also have the opportunity to use the lab and benefit from it under the proper guidance and support of our well experienced mentors and shall therefore get a platform to exhibit their talents and develop their imaginative skills and ideas into successful inventions.

SCIENCE LABORATORIES

SCIENCE LABORATORIES

Science Lab is well equipped with resources for elementary, middle and higher secondary students and teachers. Well adequate equipments for Physics, Chemistry, Biology & Biotech Lab is in its place. We also have Math Lab. Experiments and practicals will be demonstrated for the students, from Standard IV onwards. All Laboratories will match the CBSE norms.

We are the pioneer to implement the smart classes in this region. All 51 classes have been equipped with this internet enabled technological support. These includes smart boards, projectors & computers, with interactive tools, curriculum content from the world's leading academic resource provider - Pearson and Tata classes. No doubt, learning has become more exciting in this new environment which actually caters to children with different learning pathways, following MI (Multiple Intelligence) theory. Lessons with the help of computers, multimedia and rich contents in Smart Classes, which are more comprehensive, make learning more enjoyable for students,. Familiarity with computers in particular and technology in general, makes the students more confident to face the world thus improving academic performance of students.

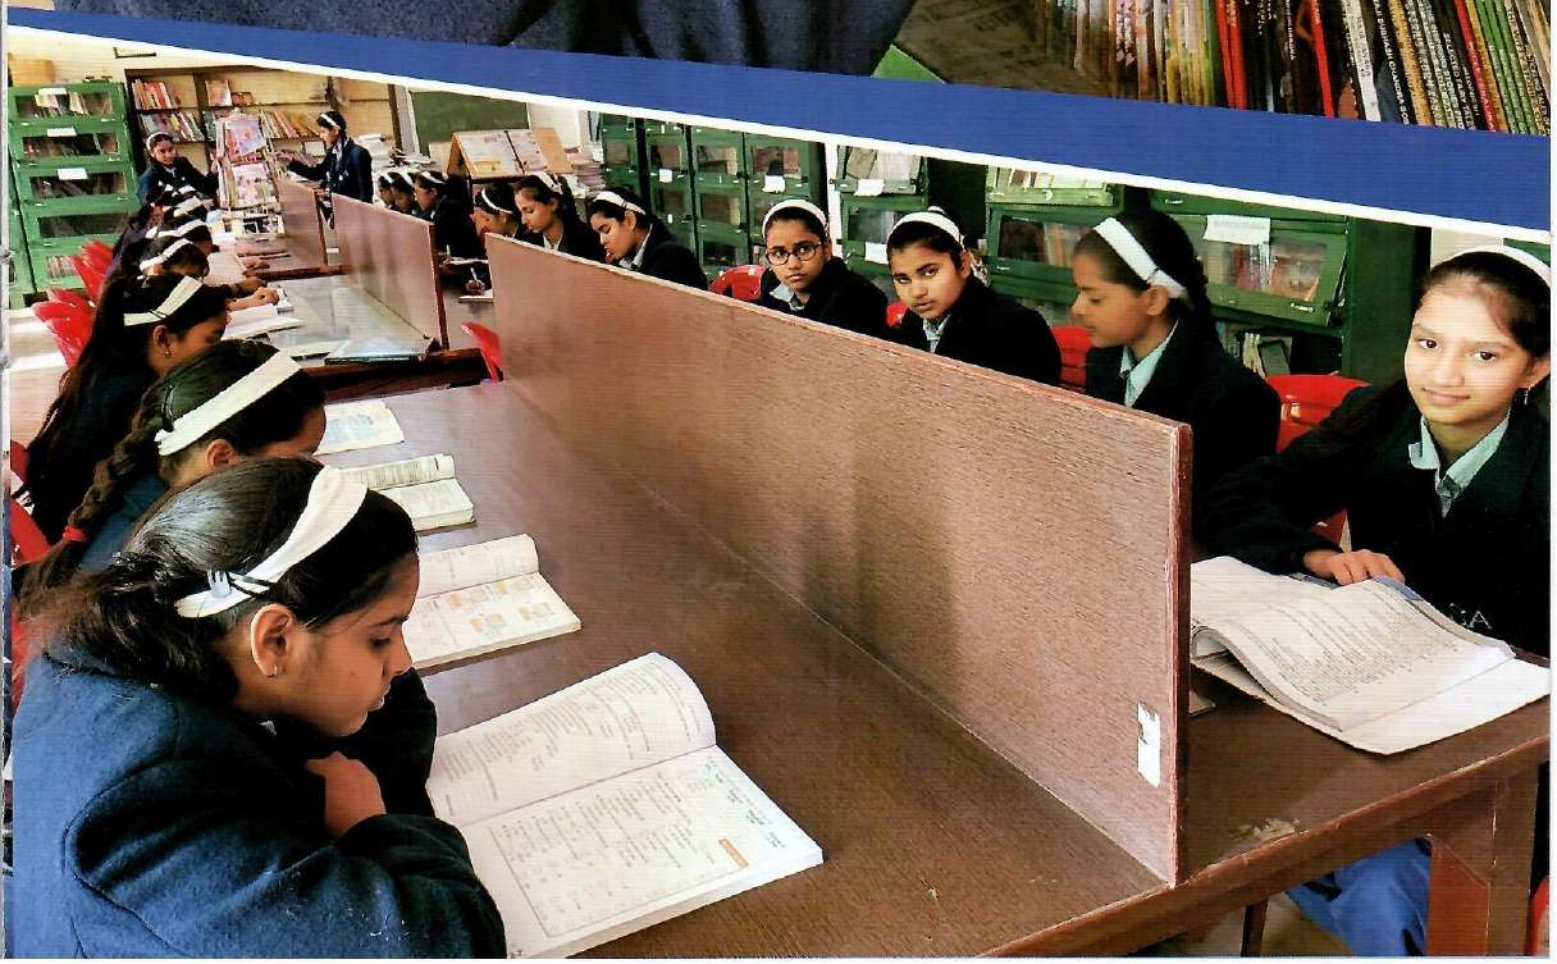

COMPUTER LAB

IT skills have now become a necessity owing to the increasing use of computers in our daily life. At SGA, Computer Education is compulsory from the very beginning. Students have internet access through leased-line from BSNL. Campus Internet connects every building and supports live management and educational facility for students and faculty. Our whole campus is inter connected with WIFI connectivity.

DIGITAL LIBRARY

The in-house library with over 25000 books and a photocopying facility is an effective tool in the education process of the student. The collection of books ranges from academic pedagogic to philosophy. The library also subscribes to selected weekly and monthly journals, magazines and newsletters, apart from daily newspapers. We also have a digital library.

A Direct communication concept

SGA is adopting the latest techniques in providing the education to its students so that they can compete globally anywhere in the world. In addition to it Stucare has collaboration with the SGA. It is intimating the guardians with overall performance of their wards along with personality development. Stucare is useful in reporting the guardians about student's absence alerts, half day confirmation, leave confirmation, project/ assignment alerts, no home work done report, performance improvement/ decline, monthly test results, school examination on alerts, competitive examination alerts, students monthly attendance report, about incorrect uniform, detention notice, poor behavior, suspension notice, injury or illness report, tips/suggestion to parents, parent teacher meeting, invitation for school events, and festive greetings through SMS, voice calls, smart call, school social network, academic module, and biometrics.

Guidance and Counseling

The Counseling Cell has a Psychologist and a Counselor. They solve problems like adjusting to the new environment for new students, coping with studies, personal problems, and developing study habits. Career counseling is provided by counselors from professional agencies.

Communication Skills

Good communication skills raise the self esteem of a student. In the present day the global markets communication skills are considered to be the essential skills of real life. In SGA we take special care to teach all the skills of English language. English conversation is mandatory in our school.

Parent teacher meetings forum (PTM)

Parent teacher meetings are held every month to discuss a child's progress in school. The parents meet all the subject teachers to discuss about their child's intellectual and psychological development. They can clear any doubt if any about the working of the school or child's progress during these meetings. The school actively encourages the parents to give suggestions about any lacuna they perceive about the child's development. These suggestions are taken seriously and worked upon.

Music & Dance Room

The school provides ample opportunities for students with an aptitude for music & dance. Highly talented tutors and availability of different musical instruments help the budding musicians to pursue their interest with ease.

Audio-Visual Room

The school has a well-furnished and plush audio-visual set-up. It serves as a valuable educational aid and multimedia facility acting as a catalyst in not only inculcating interest but also in increasing understanding of the students in the basic concepts of various disciplines.

Physical Education and Activity.

They form an integral part of everyday routine and are structured to specific age group. It is compulsory for all and introduces the children to a variety of games and activities in order to develop their fitness, physical skills, versatility and a sense of fair play. SUDITI GLOBAL ACADEMY

Presents a pinch of sparkle with the establishment of the one and only

SUDITI KIDS SCHOOL

"We strive to ensure that every child in our care is empowered to make choices and encouraged to contribute to our country."

A place where the tiny tots would cherish to explore the goodness of love and discover the mole of satisfaction.

Time Duration: 9:00 AM to 1:00 PM

- **Well-trained staff committed to quality and excellence.**

- **Enhancing communication skills:**

We believe that an effective speaking skill & communication is a key aspect & stepping stone towards success. We therefore provide the students an opportunity to enhance & build up their vocabulary & develop fluency in each core of numerous languages.

- **Fascinating learning environment.**

An attractive module of expanding education fascinates the children & makes them more curious & engrossed towards learning. We are hereby ready to impart this kind of imaginative teaching tool which would make students strike with fascination towards schooling.

- **Theme-based classrooms.**

Theme based learning rooms not only captivate the kids but also engage them in a new realm of their own imagination & help them to flourish a new skill of creativity that would possess eternity because we believe the truth that- "A strong foundation builds a powerful, fruitful erection". which implies imparting a quality knowledge to develop buds of skills in kids at a young age results in blooming of bright flowers when they are grown up.

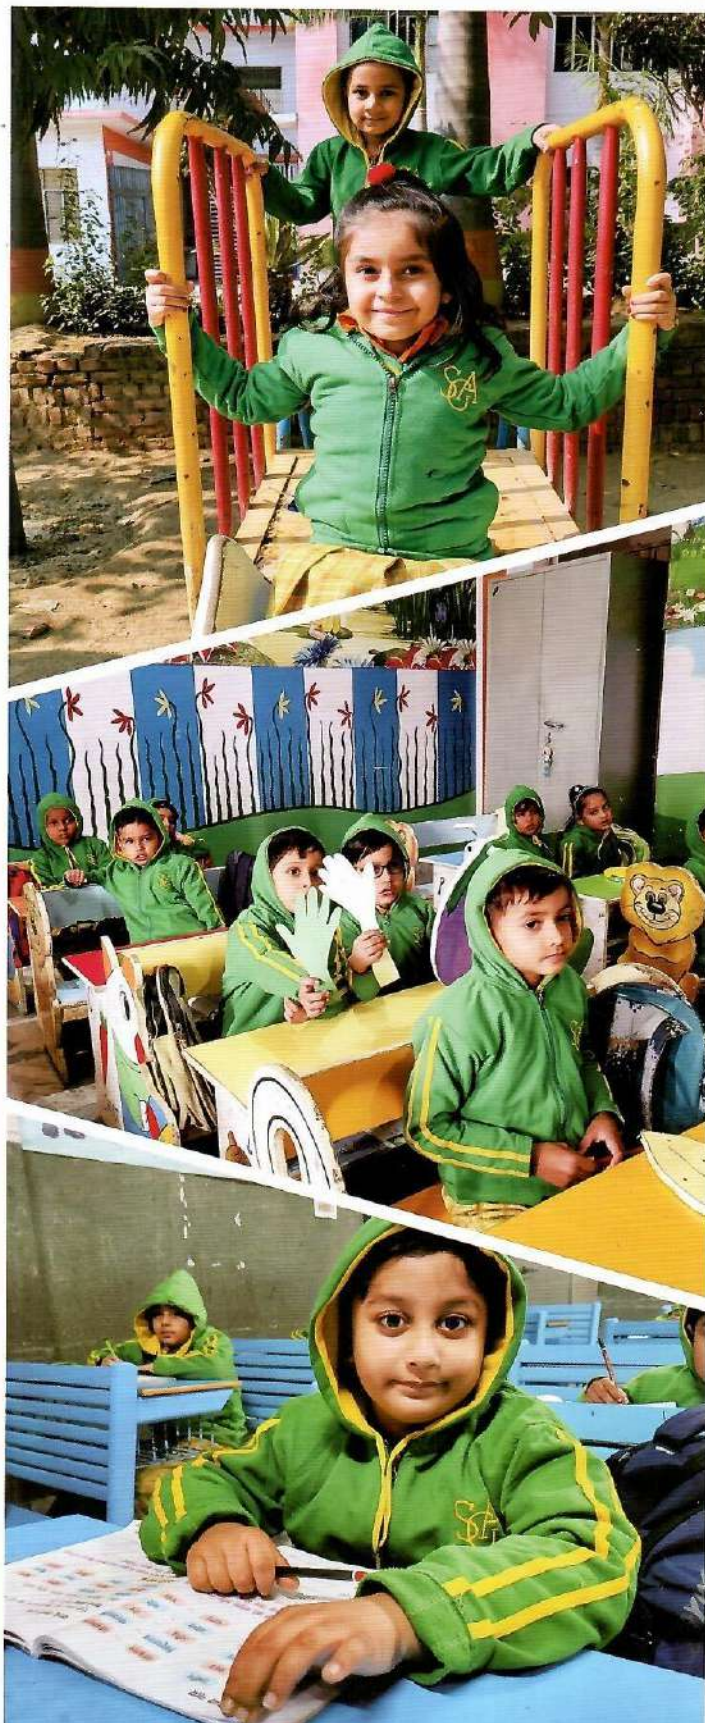

- **Intensifying development in each subject.**

The moto of our school is to boost our kids in each core of education and widen up their knowledge glossary. And hence, we strive to intensify & focus on detailed study through practical means of education in each fragment to fabricate young Einstein's & Columbus by trying to develop them in each section.

- **Establishment of VISUA-EDUCATA-the visual library.**

"Tell me and I will forget. Show me & I will remember." This expresses how desperately a kid would love to learn through visual means more than auditory classes. We aspire to provide a library completely equipped with visual means to our little kids.

This extra-ordinary library, a VISUA-EDUCATA will assist in teaching rhymes, informing the current affairs, explaining the chapters through digital means so as to enhance the ability to learn.

- **A modern thought of establishment of various zones such as :**

- **"TREASURE HOME" - The sand Pit**

"A joy of playing in sand is something very blissful rather than rolling in those huge rides."

We have established a miniature form of beach inside the premises in order to provide our kids the happiness of splashing into sand & strengthening their growing & building muscles which would acquire them healthy nourishment along with fun.

- **"FUN TOOL"-the ball pool.**

Kids admire those colourful, fluffy, fatty balls & love it when they are given a chance to splatter into a pool filled of those balls! Keeping in mind their priceless smiles, we have developed a place of amusement-the BALL POOL to provide our tiny tots an experience to cherish & enjoy to their fullest.

- **"BIRTHDAY BONANZA" - The Birthday celebration zone.**

Birthdays carry great significance in lives of little kids, because this is the day of pleasure when everybody wishes them, gifts them & they are loved to heights, especially on this day. so celebration of their born day is something they would cherish with their party friends. We have thus introduced a birthday celebration corner - The BIRTHDAY BONANZA to give kids a new experience of merriment.

- **Play area equipped with safe, secure and captivating rides and toys for the toddlers.**

Play areas are something a child would first like to discover as he/she enters the school.

So we have moulded a unique, safe, secure & captivating play area with rides of amazement & toys of amusement.

- **Provision of an overall mental, physical & intellectual enhancement.**

With assigning of numerous, light-hearted facilities we assure a complete intensification in all fields-may it be mental, physical, physiological or intellectual skills.

- **Opportunities to learn by practical means of education which includes activities like :**

- **Puppet Show**

A unique method of imparting knowledge is our primary segment of concern. So we hereby introduce new teaching aids that include grasping knowledge through creative means such as puppetry.

- **Technology Education**

Technology education is also a chief segment which has to be conveyed to the little kids in order to offer them a first step towards becoming "techno savvies" of tomorrow. Therefore, our school provides an installation of technical education so that our toddlers can grasp the basic knowledge regarding technology.

- **Field Trip**

Kids love exploring new places; and what's better than imparting them a lump of knowledge via their exploration!!

And so, we conduct regular field trips to provide an "EXPLORE AND LEARN" atmosphere to our students.

A divine place with an exotic ambience availing the best of quality education keeping par with extra ordinary and innovative activities to nurture your ward with an affectionate endeavoring.

School Transport

The school has a fleet of 30 buses at its own disposal. The buses pick up the students from their stoppage from different areas of the city and nearby areas and drop them at the scheduled stoppage.
